**USES AND DISCLOSURES OF YOUR MEDICAL INFORMATION**

We use and disclose medical information in the ways described below.

**Treatment.** We may use your medical information to provide medical treatment or services to you. We may disclose medical information about you to doctors, nurses, technicians, medical, nursing or other health care students, or other personnel taking care of you. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. In addition, the doctor may need to tell the dietitian if you have diabetes so you can have appropriate meals. Departments of the Hospital may share your medical information to schedule the tests and procedures you need, such as prescriptions, laboratory tests and x-rays. We also may disclose your medical information to health care facilities if you need to be transferred from the Hospital to another hospital, a nursing home, a home health provider or a rehabilitation center. We also may

**Grady Health System®**  
**NOTICE OF PRIVACY PRACTICES**

disclose your medical information to people outside the Hospital who are involved in your care after you leave the Hospital such as family members or pharmacists.

**Payment.** We may use and disclose your medical information so that the treatment and services you receive can be billed and collected from you, an insurance company or another third party. For example, we may give your health plan information about surgery you received so your health plan will pay us for the surgery. We also may tell your health plan about a treatment you are going to receive in order to obtain prior approval from your plan to cover payment for the treatment.

**Health Care Operations.** We may use and disclose your medical information for Hospital operations, such as for peer review, performance improvement, risk management, and our compliance with licensure, accreditation or certification requirements. For example, we may disclose your medical information to physicians on our Medical Staff who review treatment of patients. We may disclose information to doctors, nurses, technicians, medical, nursing or other health care students, and Hospital personnel for teaching. We may combine medical information about many patients to decide what services the Hospital should offer, and whether new services are cost-effective and how we compare with other hospitals. Sometimes, we may remove identifying information from this medical information so others may use it to study health care and health care delivery without learning who you are. We may disclose information to other health care providers involved in your treatment to permit them to carry out the work of their facility or to get paid. For example, we may provide information about your treatment to an ambulance company that brought you to the Hospital so that the ambulance company can get paid for their services.

**Activities of Our Affiliates.** We may disclose your medical information to our affiliates in connection with your treatment or other hospital activities.

**Activities of Organized Health Care Arrangements in Which We Participate.** For certain activities, the Hospital, members of its Medical Staff and other independent professionals are called an Organized Health Care Arrangement. We may disclose information about you to health care providers participating in our Organized Health Care Arrangements, such as a managed care or physician-hospital organization. Such disclosures would be made in connection with our services, your treatment under a health plan arrangement, and other activities of the Organized Health Care Arrangement.

**IMPORTANT NOTICE**

**The Hospital may share your medical information with members of the Hospital Medical Staff and other independent medical professionals in order to provide treatment and perform other activities such as peer review, quality improvement, medical education and other services for the Hospital. While those professionals may follow this Notice and otherwise participate in the privacy program of the Hospital, they are independent professionals and the Hospital and those independent professionals each expressly disclaim any responsibility or liability for their acts or omissions of the other with regard to violations of your privacy rights as described in this notice.**

**Health Services, Treatment Alternatives and Health-Related Benefits.** We may use and disclose your medical information to tell you about (i) health-related products or services that we offer, (ii) other providers participating in a health care network that we participate in, (iii) possible treatment options or alternatives, or (iv) health-related benefits or services that may be of interest to you. We also may use that information to communicate with you to coordinate your care. We may use and disclose your medical information to contact and remind you of an appointment for treatment or medical care.

**Fundraising.** We may use your medical information to raise money for the Hospital. We may disclose information such as your name, address, telephone number, gender, age and the dates you received treatment at the Hospital to a Hospital foundation so it can contact you. If you do not want the Hospital to contact you for fundraising, **or if you would like to opt out of current fundraising communications**, please notify the Contact Person listed below in writing.

**Hospital Directory.** We may include certain information about you in the Hospital Directory while you are a patient in the Hospital. This information may include your name, your room number, your general condition (fair, stable, etc.) and your religious affiliation. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they don't ask for you by name. Disclosure of your room will not reveal that you are in a specific unit or area of the Hospital, if such information would reveal that you are at the Hospital for treatment of rape or attempted rape, HIV/AIDS, or alcohol/drug abuse. Directory information, except for your religious affiliation, may be released to people who ask for you by name. This is so your family, friends and clergy can visit you in the Hospital and generally know how you are doing. If you do not want this information given out, please tell the **Patient Access Employee (i.e. Registration Clerk, Financial Counselor, Admitting Representative, ECC patient Representative)**.

**Individuals Involved in Your Care or Payment for Your Care.** We may release your medical information to the person you named in your Durable Power of Attorney for Health Care (if you have one), or to a friend or family member who is your personal representative (i.e., empowered under state or other law to make health-related decisions for you). We may give information to someone who helps pay for your care. In addition, we may disclose your medical information to an entity assisting in disaster relief efforts so that your family can be notified about your condition. We may disclose information to pharmaceutical companies and/or their agents to confirm your eligibility and support applications for manufacturer sponsored drug assistance programs.

**Research.** We may use and disclose your medical information for research purposes. Most research projects, however, are subject to a special approval process. Most research projects require your permission if a researcher will be involved in your care or will have access to your name, address or other information that identifies you. However, the law allows some research to be done using your medical information without requiring your authorization.

**Required By Law.** We will disclose your medical information when federal, state or local law requires it. For example, the Hospital must comply with child abuse reporting laws and laws requiring us to report certain diseases or injuries to state or federal agencies.

**Serious Threat to Health or Safety.** We may use and disclose your medical information when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person.

These activities are necessary for the government to monitor the health care system, government programs, and compliance with laws.

**Lawsuits and Disputes.** We may disclose your medical information to respond to a court or administrative order or a search warrant. We also may disclose your medical information in response to a subpoena, discovery request, or other lawful process by someone else involved in a dispute, but only if efforts have been made to tell you about the request and you have been provided an opportunity to object or to obtain an appropriate court order protecting the information requested.

**Special Treatment of Confidential Health Information.** Certain health information about you may be treated differently and with a higher level of confidentiality due to its sensitive nature as defined by state and federal law. This includes HIV-Related Information, certain substance abuse, drug or alcohol dependency treatment information, and certain mental health information.

**Health Information Exchanges.** Grady participates in certain electronic Health Information Exchanges which allow your medical information to be shared electronically with other hospitals, doctors and/or other medical persons or facilities involved in your treatment. You must authorize Grady Health System to provide your electronic medical records through a Health Information Exchange. You have the right to decline to participate in any or all of the Health Information Exchanges in which Grady participates. You will receive treatment even if you do not wish to participate in a Health Information Exchange. Grady Health System will not share your information without your authorization.

**OTHER USES OF MEDICAL INFORMATION**

Other uses and disclosures of your medical information not covered by this Notice or the laws and regulations that apply to Grady Health System will be made only with your written permission, this includes uses and disclosures of your medical information for

If you give us permission to use or disclose medical information about you, you may revoke that permission, in writing, at any time. If you revoke your permission, we will no longer use or disclose your medical information for the reasons covered by your written authorization, but the revocation will not affect actions we have taken in reliance on your permission. You understand that we are unable to take back any disclosures we have already made with your permission, we still must continue to comply with laws that require certain disclosures, and we are required to retain our records of the care that we provided to you.

**YOUR PRIVACY RIGHTS**

**Right to Review and Right to Request a Copy.** You have the right to review and copy medical information in your medical and billing records. The **Information Management Department, sometimes called the Medical Records Department** has a form you can fill out to request to review or copy your medical information, and to tell you how much will it cost. The Hospital will tell you if it cannot fulfill your request. If you are denied the right to see or copy your medical information, you may ask us to reconsider our decision. Depending on the reason for the decision, we may ask a licensed health care professional to review your request and its denial. We will comply with this person's decision. This list is not required to include all disclosures we make. You have the right to request an accounting of disclosures made through an electronic health record to carry out treatment, payment, and health care operations, for the preceding three year period. Grady must either provide you with an accounting of disclosures that it and all of its business associates have made or provide an accounting of disclosures made by Grady and a list of business associates with their contact information, who will be responsible for providing an accounting of their disclosures upon request.

**Right to Request Restrictions on Disclosures.** You have the right to make a written request to restrict or put a limitation on the medical information we use or disclose about you for treatment, payment or health care operations. You also have the right to request a limit on your medical information that we disclose to someone involved in your care or the payment for your care, like a family member or friend. **We are not required to agree to your request.** However, if we do agree, we will comply with your request unless the information is needed to provide you with emergency treatment or to make a disclosure that is required under law.
