SECTION 2: OVERVIEW, QUALIFICATIONS & EXPERTISE

Project Overview

Grady Health System is seeking to establish a single-source contract for a Teleretina Screening Program for the patients of Grady Health System. A successful Teleretina Screening Program will provide remote screening of patients who are at risk for retinal disease and other ophthalmic conditions based on their clinical history, such as diabetes and HIV. Those who are screened and determined through their imaging would be given the appropriate care plan, such as follow-up to Grady Health System’s Ophthalmology Department.

Grady Health System’s Ophthalmology Department is a multispecialty Ophthalmology clinic providing specialists in Glaucoma, Cornea, Occu-plastics, Neuro-Ophthalmology, Pediatrics, General Ophthalmology, and Optometry. In addition to providing outpatient clinical care, the Ophthalmology Department performs Ambulatory Outpatient surgeries such as cataract removals, retinal detachment repairs, tube shunts, and cornea transplants. In 2017, Grady Health System Ophthalmology Clinic had 22,364 encounters.

Vendor Registration

All vendors are required to complete a Vendor Registration Application through the GHS electronic vendor registration process prior to visiting any location or department of the health system.
