

Before you begin your clinical rotation experience, you will be required to complete a satisfactory background check and drug test. For a fast and easy background and drug screening solution, turn to InfoMart's Advantage Students, the preferred screener for students in the healthcare field.

Sharing Results: Once your order has completed you will need to Certify and Share your results. You can do this by logging into your Advantage Students account and clicking on the *Review to Share* card, click the magnifying glass to review the report and click *Certify* at the bottom of your report. You will then be given the option to share the report with your school/hospital. You'll select the *Organization Type, Organization and Program*. This will add it to the list below the dropdown boxes where you'll select the green share button. Once the button shows as Shared with a check mark, your results have been successfully shared to the organization.
