1. POLICY STATEMENT

- 1.1. Grady Health System and Children's Healthcare of Atlanta at Hughes Spalding maintains a Financial Assistance Program (FAP) related to emergency and medically necessary healthcare services provided to eligible individuals. The Program assures that the amount billed to eligible individuals is not more than the amount generally billed to individuals who have insurance covering such services.
- 1.2. Grady Health System and Children's Healthcare of Atlanta at Hughes Spalding (CHOA) does not discriminate in the provision of emergency or medically necessary care on ability to pay or source of payment.
- 1.3. Grady Health System and Children's Healthcare of Atlanta (CHOA) at Hughes Spalding complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Grady does not exclude individuals or treat them differently because of race, color, national origin, age, disability, or sex.

2. FINANCIAL ASSISTANCE PROGRAM

2.1. Who is eligible?

Residents of Fulton and DeKalb Counties with incomes less than 400% of the Federal Poverty Level (FPL) are eligible for financial assistance.

- 2.2. Residents of other counties are eligible for financial assistance for emergency services, related inpatient admissions and related post-discharge care.

- 2.3. All Medicaid eligible individuals.

2.4. Who is not eligible?

A resident living outside of Fulton and DeKalb Counties receiving care that is not associated with an Emergency Admission.

3. AUTOMATED FINANCIAL ASSISTANCE

- 3.1. At the time of registration (during address verification), every patient is electronically assessed for a Federal Poverty Level ranking through (presumptive) automated third-party software.
- 3.2. If the automated system determines a FPL level between 0 and 400%, the FPL value is returned and placed in the "FPL%" field on the patient's account. The patient is then auto-qualified for the corresponding discount level.

- 3.3. If the automated system determines a FPL level greater than 400%, "999" is placed in the "FPL%" field on the patient's account to indicate the patient is over-income for FAP.
- 3.4. If the automated system is unable to determine a FPL level (no SSN, insufficient data, date/determination mismatch), and no value is returned leaving the "FPL%" field blank, the patient may request that the automated process be repeated or may apply for financial assistance using the manual process.
- 3.5. At the time of billing, the automated financial assistance determination will repeat for any patient with no entry in the FPL field.

4. REQUESTING A GREATER DISCOUNT LEVEL

- 4.1. Patients who qualify for automated/presumptive financial assistance with a discount below the greatest discount level will receive a notice on Statement One (1). This notice indicates that the patient did not qualify for the highest discount level and advising how to apply for a greater discount level.
- 4.2. The patient may request that the automated process be repeated or may apply for financial assistance using the manual process.
